

SPE Gulf Coast Section • Emerging Leaders Program

To engage and develop the potential of young petroleum engineers in preparation to challenge and lead the oil and gas industry.

Annual Emerging Engineers Conference 3–4 April 2007

INTRODUCTION

Provide a forum for young professional engineers to explore topics that will shape and develop their careers. In this third conference, the Emerging Engineers Conference (EEC) will build on the success of prior years and offer attendees seminars, panel discussions, and a poster session focused on the following themes:

- Technical skills
- Managing skills
- Emerging technology
- Professional visibility
- Networking

A diverse group of energy industry leaders comprised of the technical, operational, and financial communities will discuss topics that will impact the next generation of energy professionals.

OBJECTIVE

The EEC wishes to expose 200 young petroleum professionals to career development skills and emerging industry technologies that will help build a solid foundation for a promising career in the energy sector.

WHO, WHAT, WHEN, WHERE, HOW MUCH, HOW MANY:

- Who: Industry professionals with less than 10 yrs experience in oilfield
- What: Hedging your Future: Operating in the Boom
- When: April 3–4th, 2007
- Where: ExxonMobil, 800 Bell Street, Houston, TX 77002
- How Much: \$225/person (member/nonmember), \$115/person for accepted poster session attendees.
- How Many: 200 people for EEC. Only 124 golf attendees slots available. (First come, First signed up).

Wednesday, April 4

- 8 – 11:30 a.m.** Session 3: 1 EEC topic, Poster Session
Lunch Provided
- 12:30 p.m.** Optional Golf Networking Event

SESSION FOR YOUNG ENERGY PROFESSIONALS AT EEC:

Please share your knowledge, ideas, expertise, innovations, practices, case studies and visions by answering this Call for Abstracts by the Emerging Leaders Program. If you are a young energy industry professional (less than 10 yrs experience), please submit an abstract (500 words max) of a project that you did or have made significant progress on to present at the EEC. The EEC is the most highly attended conference among young professionals in SPE-GCS, and the ELP would like to showcase your successes in a poster session at this event (March 2007). Please include your company, years in the oilfield, and contact information with your abstract. This poster session will provide networking opportunities, as well as promote project exposure, and build presentation confidence among ELP-SPE members.

Call for Abstracts (500 words max): October 2006 – January 31, 2007

Deadline for Submission of Abstracts: January 31, 2007

Abstract Acceptance Notification: March 1, 2007

Please submit your abstracts to: EECPosterSession2007@gmail.com

OTHER IMPORTANT INFORMATION

Co-Chairpersons: Shawn Rimassa, Schlumberger; Tony Delmoe, Merrill Lynch; Sean Willis, Hess Corporation

About Us: The Emerging Leaders in Petroleum is a committee composed of fourteen oil and gas industry professionals with less than 10 years experience in the industry. Our goal is to engage and develop the leadership potential of young energy industry professionals in the GCS section by hosting and organizing events focused on social, technical, and professional development.
