

## SPONSORSHIP OPPORTUNITIES for 2017-18 PROGRAM YEAR

### SPE-GCS Health, Safety, Security, Environmental & Social Responsibility Study Group

---

#### Mission and Objectives

The Society of Petroleum Engineers (SPE) is one of the largest individual member societies with more than 164,000 members in 143 countries. It's Gulf Coast Section (SPE-GCS) has about 15,000 members in the 29 county area surrounding Houston.

The objectives of the SPE-GCS HSSE&SR Study Group are to present relevant technical topics, discuss emerging issues, and share best practices for the purpose of peer education and professional development.

It is widely recognized that HSSE&SR is critical to accomplishing safe, clean, efficient, and responsible oil and gas operations. By raising awareness of the issues and providing a platform for industry professionals to network, the HSSE&SR Study Group influences sound decision making and the development of a culture where safety, environmental protection, and social performance is embraced and practically integrated into day to day operations.

To address the growing interest within the SPE community, the HSSE&SR Study Group organizes knowledge-sharing events by key industry practitioners, thought leaders, and decision makers. The target audience for these events include oil and gas executives and managers, HSSE&SR practitioners, industry professionals, and subject matter experts from Operators, service companies, consultants, NGOs, academia, and government.

#### Benefits of sponsorship

Sponsoring the study group's activities will bring increased visibility to your organization as a Safety and Environmental Leader among the oil & gas community and goodwill from stakeholders. Sponsorship opportunities include advertising your company logo on the Study Group's website and SPE-GCS Connect monthly newsletter, posting banners and promotional materials at group events, hosting meeting lunches and door prizes, and promote the group's activities in general... all at an affordable cost.

Our events are only possible thanks to the kind financial support from companies like yours; and I would like to thank you in advance for your participation and support. For more information about SPE-GCS HSSE&SR and our upcoming events, please visit SPE-GCS website at

<https://www.spegcs.org/study-groups/safety-environment/>.

<b>Platinum Sponsor</b> Special Annual Event \$6,000	<b>Gold Sponsor</b> Special Annual Event \$4,000	<b>Silver Sponsor</b> Special Annual Event \$2,000	<b>Bronze Sponsor</b> Luncheon / Networking Event \$500

### Where does the sponsorship money go?

The funds donated to SPE-GCS, a non-profit organization, are used to sponsor high performing students in the Gulf Coast region during their college years. The funds aim to encourage and increase interest in the petroleum industry among graduating seniors and retain students currently enrolled in petroleum related academic disciplines. The funds also support programs in area primary and secondary schools to encourage students to develop their abilities in "STEM" - Science, Technology, Engineering and Mathematics.

For more information contact: Angelo Pinheiro, CSP, Study Group Chair @ 713-494-4105.
