Subject: Summer Internships for SPE-GCS Scholarship Recipients

We have a great opportunity for your company to help the Society of Petroleum Engineers Gulf Coast Section (SPE-GCS) attract talented high school students to the petroleum engineering industry. You can be a sponsor of the 2016 SPE-GCS Petroleum Engineering Internship Program. The internship(s) your company provides will be offered to one of the 2015-2016 SPE-GCS scholarship recipients from the Houston area that is pursuing petroleum engineering related studies in college. Sponsors have the opportunity to review all the applications of the scholarship winners and make offers to the respective candidates.

Internships can be given in any discipline. The goal of the internship is to expose the student to the petroleum industry and hopefully, convince them that the petroleum industry is the right choice for his or her future. All internship sponsors will be acknowledged in the SPE-GCS Education Committee website, the SPE-GCS Connect newsletter and highlighted in a presentation at our annual SPE-GCS awards banquet.

The SPE-GCS Scholarship is dedicated to increasing interest in the petroleum industry among graduating high school seniors and retaining students currently enrolled in petroleum-related academic disciplines. All of the new students receiving the SPE-GCS Scholarship have gone through a challenging selection process that analyzes their skills in math and science, their leadership, and their volunteer and extracurricular activities. Once awarded the scholarship, students must continue to excel at their respective colleges just as they did in high school, as well as maintain their commitment to the oil and gas industry through industry related internships.

Thank you to all the companies that have historically provided internships to our scholarship recipients: Anadarko, BP, Chevron, Devon Energy, ExxonMobil, Hanover, Maersk, and Weatherford. We hope all these companies and more will provide internships this summer.

If you have any questions, please feel free to contact Simeon Eburi by phone or email at 832-854-3134 or [simeon.eburi@chevron.com](mailto:simeon.eburi@chevron.com)

Thank you in advance for your support,

Simeon Eburi  
SPE-GCS Education Committee Chair  
2015-2016 GCS Board of Directors
