30TH ANNUAL SPE-GCS SCHOLARSHIP TENNIS TOURNAMENT
P. 23 & 25

13th Annual Sporting Clays Tournament
Friday, June 7th
P. 26 - 28
We are near the end of the SPE Gulf Coast Section 2012-13 program year and I would like to thank the many volunteers in the Gulf Coast Section who have been focused on supporting this organization. These volunteers exemplify the understanding of the formula for success and effective decision making: attitude, skill and character. Well-deserved recognition to the recipients of the 2013 SPE-GCS Section Service award:

KRIStEL BLOW  Northside Study Group Treasurer
JIM CROMPTON  Digital Energy Study Group Committee Member
TANHEE GALINDO  GCS Scholarship Committee Chair
SHARON HARRIS  SPE-GCS Administrative Assistant
RUSS NEUSCHAEFER  GCS Technology Transfer Committee Chair
AMY TIMMONS  Permian Basin Study Group Treasurer / Drilling Study Group Program
JOSE VILLA  Reservoir Study Group Chair

Congratulations to the recipients of the 2013 SPE Gulf Coast Section award for:

OUTSTANDING STUDY GROUP  Digital Energy
OUTSTANDING COMMITTEE  Communications

Creating a work-life balance is a challenge for many of us. Technology connects us to our jobs and allows us to communicate at a faster rate than ever before. Work seems to consume a larger share of our “free” time. One way to start creating a better work-life balance is setting aside quiet time for reflection and asking yourself what is most important and what you want to accomplish. Second, it is healthy to take a break. Schedule an “off” day on your calendar. Exercise and rest are stress relievers that may help you make better decisions and be more productive. Third, working smarter, not harder, can help achieve work-life balance. Fourth, write down the ten things you want to accomplish for the week and number them by priority. You can deal with an interruption by weighing what is more important: the interruption or the task you are working on. Finally, while we all think we can multitask, our brains can only focus on one thing at a time. When we focus on one task, it is amazing what we can accomplish.

The SPE-GCS Strategic Plan calls for a Long Range Plan (LRP) outlining specific action items and initiatives that are shaped by the Strategic Plan. Mike Strathman (Vice Chair) and his 2013 LRP committee are beginning this important work. The 2013 LRP committee is tasked with reviewing implementation of the initiatives outlined in the 2009-2012 LRP and making recommendations for initiatives to be included in the 2013-2016 LRP. The new LRP will be guided by the 2013 Strategic Plan approved by the SPE-GCS Board of Directors in April. It is important that the 2013-2016 LRP incorporates changes that the SPE-GCS members want, while not changing established and well-appreciated initiatives of the section. To that end, we ask each of you to communicate with the members of the LRP Committee and voice your suggestions on new initiatives to be pursued over the next three years, as well as which established initiatives should continue to be supported by our section. Please send us your comments and suggestions. My email address is sbaumgartner@marathonoil.com.

JUNE 2013  3
FEKETE SOFTWARE TRAINING
AVAILABLE IN HOUSTON, TX

**feke HARMONY**
Well Performance Analysis Environment

**fast declineplus**
Learn the fundamentals of the Fekete Harmony Environment and apply production data analysis using traditional methods

- June 11, 2013
- September 17, 2013
- November 19, 2013

**fast rta**
Conventional Production Data Analysis
Learn a comprehensive methodology for production data analysis combining the use of several powerful techniques

- June 12, 2013
- September 18, 2013
- November 20, 2013

**fast rta**
Unconventional Production Data Analysis
Learn a methodology for Unconventional Oil & Gas Well Performance Analysis and Production Forecasting

- June 13, 2013
- September 19, 2013
- November 21, 2013

**fast piper**
Learn how to construct Integrated Asset Models using a methodology for providing reliable baseline forecasts

- September 10-11, 2013

**fast welltest**
Mini-Frac (DFIT) Analysis for Unconventional Reservoirs
Learn a comprehensive methodology for analysis of Mini-Frac (DFIT) tests including Pre-closure and After-closure analysis

- November 14, 2013

**CUSTOMIZED TRAINING**
Fekete offers custom in-house software and engineering workshops to groups of 8 or more learners.

Book an existing course for your group, or allow us to customize your training to include analysis of your data and to create a workflow to suit your specific assets.

Visit [fekete.com](http://fekete.com) for detailed course outlines and registration.
Real-time CT services help Saudi Aramco boost production by 1,000 bbl/d.

Saudi Aramco used ACTive* real-time coiled tubing services to perform a rigless water shutoff treatment in a nonproductive horizontal well. Accurate plug and packer placement isolated the water-producing zone, decreasing water cut by 50%, increasing oil production by 1,000 bbl/d, and cutting completion time in half.

Read the case study at slb.com/ACTive

World leaders in dynamic modelling

SPT Group is the world leader in dynamic modelling for the oil and gas industry providing a range of software and consulting services within multiphase flow and reservoir engineering. We develop and market OLGA®, Drillbench®, MEPO® and OLGA® Online, products and solutions that maximize value for engineering and operations through the entire field development lifecycle.

The highly skilled professionals of SPT Group have a common goal of bringing state-of-the-art competence and technology to our customers.

www.sptgroup.com
Barry Faulkner has been making the arrangements with the Petroleum Club and generating the publicity (email blasts and website posts) for the General Meeting Study Group forever – or at least since the last millennium (1999). Before that, he was an active volunteer for the Westside Study Group during the 80s and 90s. He was also active with the General Meeting group and served on the Board of Directors in the 1970s. He is one of the few who has received multiple SPE Gulf Coast Section Service Awards: one in 2009 and another in 2011. Barry was most recently a Senior Vice President at Zone Energy, but retired two years ago. Now he has even more time to volunteer for his church, his civic association, and SPE. “I could work if I wanted to,” he said, but he’s happy just going to the General Meeting to keep up with what’s going on. “I get to see guys I haven’t seen in a while.”

Barry has a BS in Petroleum Engineering from the University of Texas at Austin and logged over 40 years of experience in the oil and gas industry. Prior to joining Zone Energy, Barry held engineering and management positions at Amoco Production Co., CMS Oil & Gas Co. and Fairways Offshore Exploration, Inc. His work has taken him to the Gulf of Mexico, Mid-continent, the Permian Basin, various areas in West and North Africa, Egypt, the Middle East, China, and South America.

Barry’s areas of expertise include reserve evaluations, field development and operations, prospect evaluation, secondary recovery, and reservoir description and evaluation. His communication skills, developed through relations with management, government officials and industry professionals from all sorts of oil companies, are put to use serving SPE members who attend our Gulf Coast Section’s General Meetings.

And if you like those ice cream balls rolled in pecans with chocolate or caramel sauce for dessert at the Petroleum Club, Barry is the guy who decides the menu each month.

Control With Confidence

Engineered Prevention, Response & Results

Whether onshore, offshore or underground, Cudd Well Control has complete solutions for well planning and intervention. As a Qualified Third Party, we provide the necessary oversight to help you meet NTL-05 and NTL-06 requirements. Our team of engineering experts will assist you with a wide range of services, from rig inspections and blowout contingency planning, to specialized training and modeling. With a proven track record of success confronting blowouts and problem wells in any environment, Cudd Well Control is the preferred choice.

Well Control Services:

- Oil Well Firefighters and Blowout Specialists
- Well Control & Kick Resolution
- Underground Blowouts
- Dry Ice/Cryogenic Freeze Services
- Hot Tap and Valve Drilling Services
- Engineering Services
- Rig Inspections
- Drilling Plan Enhancements
- Blowout Contingency Planning
- Specialized Training
- Relief Wells
- Kick Modeling
- Gas Dispersion Modeling
- BOEMRE Compliance

This year, SPE-GCS has awarded 27 new scholarships to graduating high school seniors who will begin their first college semester in fall 2013. These young men and women will embark on a journey to receive a degree in engineering or geoscience. All of the students receiving this scholarship have gone through a challenging selection process that analyzes their skills in math and science, their leadership, and their volunteer and extracurricular activities.

The Houston SPE Auxiliary, which dates back to 1963 when its predecessor, the WWAIME Group, awarded the first student loans, teamed up with SPE in 1978 to begin providing scholarships to deserving students in the Houston area. Over the past 45 years, more than 500 deserving high school students throughout the Gulf Coast area have received the Houston SPE Auxiliary’s “Scholarships for Tomorrow” scholarships. This year, four new SPE Auxiliary scholarships have been awarded to the following students:

DREW HEUGEL
Lamar Consolidated High School

LAUREN MCALEXANDER
George Ranch High School

MARK MELTON
Seven Lakes High School

ALOYSIUS UTOMO
Bellaire High School

RYAN BAUMGARTNER
Memorial High School

ALLISON BUETTNER
Stephen F Austin HS

JOHN BURMAN
Cypress Creek High School

TIMOTHY DAVIS
Memorial High School

ERIK DENGLER
The Colony High School

JACK DISORBO
Kingwood High School

KATHERINE FEDER
Conroe High School

WILLIAM FROEBEL
Cypress Creek High School

GRACE HOWLEY
Kingwood High School

ANTHONY HRESKO
Stephen F Austin HS

ROBERT JORDAN
Bellville High School

DANNA KNIGHT
Jersey Village High School

CALEB KNIGHT
Jersey Village High School

HENRY MERSCHAT
Katy High School

CLAIRE MULLEN
Brenham High School

KEVIN NGUYEN
Mayde Creek High School

MASSON WHITTINGTON
Foster High School

SPE-GCS scholarship funds are awarded annually to outstanding local high-school seniors who plan to pursue a career in the petroleum industry and will major in engineering or science. Each scholarship provides $3,000 per year for new recipients as well as renewals. The majority of funds for the program are raised through the individual volunteer efforts of the 15,000+ members of the SPE-GCS and the Houston SPE Auxiliary in the Greater Houston area. Within SPE-GCS, funds are raised through sporting clays, golf and tennis tournaments, workshops, continuing education programs, seminars, symposia and study groups. The Houston SPE Auxiliary derives funds for its scholarship program by holding fundraising events for the activities of special interest groups of the organization or through memorial contributions and by working as volunteers in the OTC Nomad International Room and as support staff in the SPE office.

While the main purpose of SPE-GCS is to disseminate technical information for engineers involved in our industry, the second objective is to encourage students to develop their abilities in mathematics, science and engineering. The scholarship program helps meet that objective. It has been a key program for SPE-GCS since it was founded by the Auxiliary many years ago. This year, 17 deserving high-school students will be receiving a SPE-GCS Scholarship.

This year, we also recognize the winners of the Community in Schools Houston (CISH) Scholarship. The Society of Petroleum Engineers is a long-time partner of CISH Inc. and has successfully hosted this Job Training Program for CISH high school students for many years in order to prepare them for successful employment. This partnership creates educational experiences that will develop and enhance transferable life skills, as well as create exposure to career choices such as:

{ ENVISIONING THEIR FUTURE RESEARCHING CAREERS SETTING GOALS AND SOLVING PROBLEMS GAINING EXPERIENCE }

Winners Continued on Page 11
Integrating mechanics, chemistry and hydraulics for a new dimension in displacement expertise

The SMART 3D strategy provides a single-source, integrated package of displacement services, including the latest generation of chemical, mechanical and hydraulic technologies to promote the efficient, effective delivery of a properly prepared wellbore.

Stop waiting for old boats and outdated equipment.

Our stimulation fleet includes many of the industry’s newest, most innovative vessels incorporating advanced instrumentation and redundant, job-critical equipment.

Of course, it takes more than modern technology to ensure your well gets the right treatment the first time. Drawing on our global expertise, we carefully plan each job to ensure a customized fluid system is delivered reliably and efficiently—lowering NPT and risk while enhancing your production and profits.

The SPE Legion of Honor recognizes individuals who have maintained their membership in SPE for 50 years. This list of inductees includes not only captains of industry and pioneers in exploration, production and petroleum technology, but also numerous members who have received SPE recognition before. The list includes SPE Directors, SPE Distinguished Members, and holders of countless SPE officer positions over the past 50 years. The people on this list have written hundreds of technical papers and articles, compiled several textbooks, and hold dozens of technical patents. The list contains many industry leaders of the past and present that guided the full spectrum of companies – from small independent firms to major Fortune 500 corporations. The importance of their accomplishments and dedication over the last 50 years cannot be overstated.
At Chevron, you’ll join a team with the technology to take on big challenges, the integrity to do it responsibly, and the drive to keep the world moving forward. Are you up to the job?

Chevron is seeking experienced petroleum engineers for production, reservoir, reservoir simulation, drilling and completions positions.

Please visit us online at www.chevron.com/careers to learn more and apply.

PF&C Summer Series: Five Things You Wanted To Know About Subsea Production Systems

As offshore discoveries go deeper and into new environments, producing these resources becomes a more complex challenge. Stakeholders must give consideration to numerous factors, many of which can make or break the economics of a development. Subsea is one of the key considerations in development and production of hydrocarbon resources and becomes even more critical as the economics escalate as time passes. Subsea concepts and solutions have seen considerable advancement in the application of innovative ideas and technologies to address production challenges.

Five topics, presented by industry-recognized experts, have been selected to provide the attendee with a general understanding of the challenges that face subsea production and the methods implemented to address these challenges.

Each session is scheduled as a one-hour presentation followed by a 30-minute Q&A session. We expect a large turnout, so please book early and try to attend all five. We appreciate the support of our SPE-GCS members and we look forward to seeing you there you there.

Abstract

SERIES I: FMC will be demonstrating the 3D software that the company uses to present an introduction to subsea hardware and basic field development. The software tool enables the audience to fly in and around all the various types of hardware normally supplied by FMC. There will be discussions on vertical versus horizontal tree selection, the role of the subsea tree and how the auxiliary systems are designed to enable ease of installation and provide high availability.

SERIES II: Cameron will address concepts associated with increasing recovery from subsea reservoirs. These concepts will be centered on subsea boosting options including multiphase pumping, single phase pumping, gas-liquid separation and hybrid boosting, large gas field boosting using dry gas compressors and wet gas compression. We will also look at the pros and cons of carrying out water injection subsea and describe recent produced water separation and injection initiatives.

SERIES III: INTECSEA will provide an overview of deepwater floating production systems used by the oil and gas industry. A summary of the main characteristics of different floating production system types will be presented along with the pros and cons of each system. We will also present recent innovations and future challenges to the floating production systems. Methodologies on how to select a floating production system for oil and gas field development will be also discussed.

SERIES IV: Assured Flow Solutions will be discussing flow assurance issues and various methodologies for mitigating the risk of permanently or temporarily losing production. Company experts will cover hydrate plugging, wax deposition, corrosion/erosion, scale deposition, asphaltenes and others. The presenter will provide insight into various methods of mitigation.

SERIES V: Technip will go into the design and installation of umbilicals and flexible pipelines. This lecture will take advantage of the considerable experience of Technip in the design and installation of these types of systems and the options available with regard to installation hardware.

Future Trends in Oil & Gas Research and Development – Panel Discussion

A panel discussion on “Future Trends in Oil & Gas Research & Development.” Each panelist will give a five-minute introduction on the topic. We will then invite audience questions and participation in order to have a wide-ranging discussion on the topic.

Henry Bergeron

Henry Bergeron has been the Well Systems Focus Area Manager for Chevron Energy Technology Company since 2008. He most recently worked as a Senior Drilling Advisor in Atyrau Kazakhstan on the Tengiz Sour Gas Injection Major Capital Project. He also worked as a Drilling Advisor in Lagos Nigeria and Duri Indonesia and in various locations in the United States. He has been involved in numerous drilling and completion projects in extreme environmental conditions and using horizontal, multilateral technology. He began his career with Gulf Oil Company in New Orleans Louisiana in 1981. He holds a Bachelor of Science degree in Petroleum Engineering from Louisiana State University and is a registered engineer in the State of Texas.

Jim Raney

Jim Raney graduated from the United States Military Academy at West Point in 1975 and joined Mobil Oil in 1981. He served in a variety of technical and management assignments with Mobil and ExxonMobil before joining Anadarko Petroleum in 2001. He was called to active duty to support Operation Enduring and Iraqi Freedom. In 2004, he returned to Anadarko and is currently the Director of Engineering & Technology. In addition to his duties at Anadarko, Jim serves as Chairman of the API Committee on Standardization of Oilfield Equipment and Materials (CSOEM) and Vice-Chairman of the API Global Industry Services Committee.

John H. Hallman, Ph.D.

John H. Hallman, Ph.D. is Manager of the Strategic Technology Group, reporting to the Weatherford CTO and Group Vice President for Research and Engineering. The Strategic Technology Group seeks out opportunities for new technology development and collaboration and serves as the principal liaison between Research and Engineering and operator technology groups, universities and consortia. John also manages a fundamental and applied research budget for mainly external research projects. Prior to that, Hallman worked in both the Managed Pressure Drilling and Engineered Chemistry groups within Weatherford. He is a member of SPE and the American Chemical Society and has seven patents and numerous publications in technical journals. John received a B.S. in Chemistry from Ursinus College (PA) and a Ph.D. in Physical Organic Chemistry from the University of Houston.

Dr. Kesh Keshavan

Dr. Kesh Keshavan is Technology Advisor at Schlumberger. His full bio was unavailable at printing.

In unconventional plays, you’re challenged by how to make more oil or gas while reducing costs and meeting environmental parameters. Halliburton has the solution: distributed temperature sensing—used in conjunction with microseismic fracture mapping—that gives operators the ability to make adjustments during a treatment to help assure every planned zone is treated.

What’s your stimulation monitoring challenge?
For solutions, visit www.pinntech.com
The 30th Anniversary Society of Petroleum Engineers Gulf Coast Section Tennis Tournament will be held on THURSDAY, September 19th & FRIDAY, September 20th at The Houston Racquet Club located at 10709 Memorial Drive in Houston, Texas. Proceeds from the tournament benefit the SPE-GCS Scholarship Fund. In combination with other section functions, there have been 20 new scholarships for incoming college freshman studying petroleum engineering, math and sciences, and 89 renewed scholarships which include sophomores, juniors and seniors with their continued education in petroleum engineering. More than $3 million dollars in scholarships have been awarded since 1963 to students through this program.

In 2012, we had a very successful tournament with over 80 players participating. Registrations and sponsorships raised $50,000 in revenue. After tournament expenses, net proceeds of over $26,100 dollars were contributed to the SPE-GCS Scholarship Fund.

Sponsors are a welcome and an essential part of making this event a success. All sponsors will be recognized in the tournament program and on the sponsorship billboard that is exhibited throughout the tournament. Please see the Sponsor Form for sponsorship levels. In-kind donations for ditty bags and door prizes are also accepted.

On behalf of the entire 2013 SPE-GCS Tennis Committee, we look forward to seeing everyone for two fun-filled days of tennis!

**QUESTIONS**
Bob Fu
713-591-9808
bob.fu@bp.com

Suzanne del Rosario Davis
832-618-5282
sdelrosariodavis@lgc.com

**LOCATION**
The Houston Racquet Club
10709 Memorial Drive
Houston, TX 77024
713-464-4811
houstonracquetclub.com

**START TIMES**
Mixed Doubles
Begins Thursday
September 19th - 6:00 PM

Tournament Doubles
Begins Friday
September 20th - 9:00 AM

**EVENT INFORMATION**
There will be two flighted round robin events:
Tournament Doubles – Friday, September 20th
Mixed Doubles – Thursday evening, September 19th

The tournament doubles event is open to men and women and is a combined bracket. Partners may be of the same gender or mixed.

The committee will assist players who do not have a partner for any event.

**FLIGHTING**
Championship – Advanced Players
A – Regular & Advanced Players
B – Intermediate Players
C – Non-regular Players & Beginners

The SPE-GCS Tennis Committee reserves the right to allocate players to a different flight if necessary. Please rank yourself on the honor system.

**WHAT TO EXPECT**
Lots of tennis, meeting old friends and making new ones.
Door prizes, T-shirts, awards, meals and beverages.

Thursday – Light dinner
Friday – Breakfast, lunch and snacks
Hit & Grab – Friday after lunch
Award presentations, door prizes & heavy appetizers – late Friday afternoon ~ 4PM

**RULES OF ENTRY**
The event is open to members, nonmembers, guests, and friends of SPE. The only restriction is that tennis professionals are not allowed.

**REGISTRATION**
Thursday, September 19th - 4:00 - 6:00 PM
Friday, September 20th – 8:30 – 9:00 AM

**IMPORTANT NOTICE**
All paid participants must wear their “Name Tags” during this event to have access to the food and drinks.

**ENTRY FEE INFORMATION**
$125.00 Per person - Fee covers Tournament and Mixed Doubles for an individual player.
$50.00 for those only playing Mixed Doubles.
$25.00 – Spouse/Guest (Not Playing)
Fees are due with entry form.

Tournament Sponsorship

- **Diamond Sponsor**
  - $7,500
  - As a diamond sponsor, your company will be recognized as a Corporate Sponsor of the tournament and the company name will appear on the sponsor board. Your sponsorship entitles you to four (4) complimentary teams in the tournament and V.I.P. parking.

- **Platinum Sponsor**
  - $5,000
  - As a platinum sponsor, your company name will appear on the sponsor board. Your sponsorship entitles you to two (2) complimentary teams in the tournament and V.I.P. Parking.

- **Gold Sponsor**
  - $3,500
  - As a gold sponsor, your company name will appear on the sponsor board. Your sponsorship entitles you to one (1) complimentary team in the tournament and V.I.P. parking.

- **Silver Sponsor**
  - $2,000
  - As a silver sponsor, your company name will appear on the sponsor board. Your sponsorship entitles you to V.I.P. parking.

- **Bronze Sponsor**
  - $1,500
  - As a bronze sponsor, your company name will appear on the sponsor board. Your sponsorship entitles you to V.I.P. parking.

- **Entry Gift Sponsor (limited to 3)**
  - $5,000
  - As an entry gift sponsor, your company name will be on the sponsor board and on entry gifts (to be determined by committee) handed out to each shooter.

- **Shuttle Cart Sponsor (limited to 3)**
  - $2,000
  - As a shuttle cart sponsor, your company name will appear on the sponsor board and on the shuttle carts used at the tournament.

- **Shotgun Sponsor**
  - $1,200
  - As a shotgun sponsor, your company name will appear on the sponsor board. Your sponsorship entitles you to personally present the shotgun on stage at the tournament to the winner.

- **Shooter # Sponsor**
  - $1,000
  - As a Shooter # Sponsor, your company name will appear on each competitor # that all participants will display.

- **Scorecard Sponsor**
  - $1,000
  - As a scorecard sponsor, your company name will be on the sponsor board, competitor #, and on each scorecard

- **Corporate Sponsor**
  - $500
  - As a corporate sponsor, your company name will be on the sponsor board.

- **Hospitality Tent Sponsor (limited to 5)**
  - $500
  - As a hospitality sponsor, your company name will be on the sponsor board. As part of your sponsorship, you will be allowed to set up at or near the pavilion to provide one of the following: (1) Breakfast, (2) Lunch, (2) Drinks, or (1) Gun Cleaning Service.

- **Station Sponsor**
  - $250
  - As a station sponsor, your company name will appear on the sponsor board. As part of your sponsorship, you will be asked to set up a tent at an assigned station to provide refreshments for shooters throughout the day.

*Committed to Safety*
Thank you to the Digital Energy and Permian Basin Study Groups for their photo submissions this month. For the first time in the history of the SPE-GCS newsletter, we will be issuing a July newsletter. The July Connect will be a recap of the 2012-2013 program year for SPE-GCS. We hope to feature photos from all events throughout this past year as well as selected text from the section's annual report. If you have any photos from your events that you would like us to feature, please send the original, high resolution file to the Connect editor at editor@spegcs.org.

Directionally challenged?

If your directional drilling program is more challenging than you expected, maybe you need a new directional driller. Maybe you need Ryan Directional Services, Inc.

Ryan has experience in virtually every important oil and gas shale play. We know the potential roadblocks and how to address them before they cost you money. And that takes drilling to a new level of efficiency.

Call Ryan at 281.443.1414 and see how our directional drilling program will change your experience from challenging to rewarding.
